To Parents and Guardians,

RE: Scents, Nut and Kiwi Allergies

Some students and staff members at ZESS have severe allergies to nuts and kiwis, while others are sensitive to strong scents. To help ensure a safe and healthy learning environment for everyone, we kindly ask parents and guardians to:

- Check food items carefully and avoid sending products that contain nuts, kiwi, or may contain traces of these ingredients.
- Ensure that students do not bring body sprays, colognes, perfumes, or other strongly scented products to school.

Your support in this matter helps create a safe environment where all students, staff, and visitors can learn, work, and play comfortably.

Thank you for your cooperation.

Sincerely,

Adam Barber
Principal, ZESS
